Members Plan Interesting Social Events; Dining Room Opens Monday.

With the opening of the new quarters of the University club in the Martin building Saturday, a series of social events are planned by the club. The first big event will be a formal banquet on April 1 to celebrate the first anniversary of the organization of the club. The new quarters will be formally opened at this meeting. Following the banquet a reception is planned at which the public will be invited to visit the new clubhouse. The date for this event has not been determined.

Most Complete in City.
The new club rooms, located on the seventh floor of the Martin building, are the most complete in the city. The main room is divided into three departments. In one corner is a billiard and pool room equipped with the latest steel framed tables. The lounge room is furnished with leather upholstered furniture, which centers around a huge fireplace. In the rear of the lounge room are two dining rooms. One is the main dining room and adjacent to it is a Dutch room, where Dutch lunches will be served. The three rooms are divided by heavy partitions.

Large Enough for Dances.
The room can be made into a ball room for the University club dances planned for the summer.

Five Living Rooms for Members of the club are also included in the new quarters. A complete hotel service has been arranged. A reading and library room is also in the suite.

Will Select Steward.
The club will select a steward for the quarters at a meeting of officers and committees Friday night. It is planned to open the dining room on Monday.

The University club also has fitted up the roof of the Martin building for its use. A waterproof floor is being laid and during the summer months dances will be held there and the dining room transferred to the roof.
